

The KINT Meetings Committee once again cordially invites you to the KINT Congress 2024. This event will take place on 10 April 2024.

The theme chosen for the KINT Congress 2024 is: **“New Energy”**

It will not have escaped your notice that we are facing climate change and with it the search for solutions to our energy needs. The energy transition is taking place towards New Energy. Greener forms of energy such as solar, wind and hydrogen.

But what about the transition involves inspection and non-destructive testing for these new forms of energy? We will have to deal with different materials, different degradation mechanisms and many more challenges.

As you are used to from us, the congress will not only be informative, but also a good time to see old acquaintances again and make new contacts. To give our beautiful industry and association some more attention among the starting NDT-er we have another great offer!

We also like to invite starters and "young professionals" working within our industry. They may join our members for a reduced rate of € 175. For this they not only get a great opportunity to network, they also get one year membership in KINT.

### **New awards!**

In addition to the existing KINT awards, KINT will present two new awards during the conference:

New Energy award  
Inspector or NDT talent of the year

Who deserves this award and why? Send this to [info@kint.nl](mailto:info@kint.nl)

## **INVITATION**

**KINT CONGRES 2024**
